

Curriculum Vitae (January 2020)
Zachary David Blount

Research Assistant Professor
Michigan State University
East Lansing, MI 48823

Email: zachary.david.blount@gmail.com
Webpage: www.blount-lab.org
Google Scholar: <https://scholar.google.com/citations?user=8PdJLAAAAAJ&hl=en>

Positions

- 2019 – Present** **Research Assistant Professor**
Department of Microbiology and Molecular Genetics, Michigan State University, East Lansing, MI
- 2018 – 2019** **Senior Research Associate**
Department of Microbiology and Molecular Genetics, Michigan State University, East Lansing, MI
- 2018 – 2019** **Visiting Assistant Professor of Biology**
Department of Biology, Kenyon College, Gambier, OH
- 2011 – 2018** **Research Associate**
Department of Microbiology and Molecular Genetics, Michigan State University, East Lansing, MI

Education

- 2003 – 2011** **Ph.D. in Microbiology and Molecular Genetics**
Department of Microbiology and Molecular Genetics, Michigan State University, East Lansing, MI
Mentor: Dr. Richard E. Lenski
Committee: Dr. Terence Marsh, Dr. Robert Pennock, Dr. Thomas Schmidt
Dissertation: The Evolution of a Key Innovation in an Experimental Population of *Escherichia coli*: A Tale of Opportunity, Contingency, and Co-option. Defended March 16, 2011.
Defense Video: <https://youtu.be/rnXZ9XlxQ8I>
- 2000 – 2003** **M.S. in Biological Sciences**
Department of Biological Sciences, University of Cincinnati, Cincinnati, OH
Mentor: Dr. Dennis W. Grogan
Thesis: Isolation and Characterization of Insertion Sequence Elements from Natural Isolates of the Hyperthermophilic Archaeon *Sulfolobus*
- 1995 – 1999** **B.S. in Applied Biology, with High Honor**
School of Biology, Georgia Institute of Technology, Atlanta, GA
Minors: Health Science, History, Personality/Social Psychology, Industrial/Organizational Psychology
Adviser: Dr. Yury Chernoff

Research Interests

Microbial Evolution, Experimental Evolution, Historical Contingency, Evolutionary Historicity, Evolutionary Potential, Origins of Evolutionary Novelty, Speciation, Niche Discovery

Publications

Teaching Experience

2019 Instructor of Record:

Biol 239: Introduction to Experimental Microbiology (Kenyon College)

- A standard, introductory course that I developed to introduce students to basic techniques in microscopy, bacteriological culturing, identification of microbes, and environmental microbiology. Proper data collection and scientific writing were also covered.

Biol 238: Microbiology (Kenyon College)

- A lecture-based introductory course that I developed to cover all aspects of basic microbiology, including scope, history, historical importance of microbes, methods, origins, cell physiology, genetics, metabolism, origin, evolution, speciation, experimental microbial evolution, the microbiome, virology, immunology, and infectious disease. Unlike many such courses, I included evolution as a unifying concept to both tie the field together and to other parts of biology.

Bio 110: Introduction of Experimental Biology, Part II (Kenyon College)

- The second course in the freshman biology lab series. It focused on further development of scientific and writing skills, in part through the performance of independent research projects on which the students later presented.

2018 Instructor of Record:

Biol 191: Not Just Darwin, a History of Evolutionary Thought (Kenyon College).

- Lecture-based course I developed to introduce students to the history of evolutionary theory from the Greeks through the modern day. The course content included examination of the history and nature of science, the place of biology within science, the role of Darwin in the birth of evolutionary theory, its development since Darwin, its misuse to support social or political agendas like scientific racism, sexism, and classism, as well as the history, tactics, and diversity of the creationist movement.

Biol 109: Introduction to Experimental Biology (Kenyon College)

- The first in a year-long freshman biology lab series, this course focused on development of skills in data analysis, experimental design, and scientific writing.

2017 Guest Lecture: “A Big Ball of Evolvey-Wolvey Stuff: The Interplay of Ecology, Physiology, Evolution, Innovation, and Incipient Speciation in an Experimental Population of *E. coli*”, Biology 650, Microbial Biology (University of Wisconsin at Oshkosh)

Guest Lecture: “Study Evolution with *E. coli*: 68,000* Generations of Evolution in Action (*and counting), Dewitt High School Honors Biology Visit to BEACON (Michigan State University)

- 2016** Guest Lecture: “A Big Ball of Evolvey-Wolvey Stuff: The Interplay of Ecology, Physiology, Evolution, Innovation, and Incipient Speciation in an Experimental Population of *E. coli*”, Biology 650, Microbial Biology (University of Wisconsin at Oshkosh)
Guest Lecture: “The *E. coli* Long-Term Evolution Experiment: 65,500* Generations of Evolution in Action (*and counting)”, ISB (Michigan State University)
- 2015** Guest Lecture: “Examining the Evolution of a Novel Trait in a Long-Term Experiment with *E. coli*”, LB492, DNA Sequencing Technology and Applications (Michigan State University)
Lecture: “Studying Evolution with *E. coli*: 62,500 Generations of Evolution in Action”, Dewitt High School Honors Biology Visit to BEACON (Michigan State University)
- 2014** Lecture: “Studying Evolution with *E. coli*: 61,500 Generations of Evolution in Action”, Dewitt High School Honors Biology Visit to BEACON (Michigan State University)
Lecture: “Studying Evolution with *E. coli*”, BEACON Center and NESCent Darwin Day Road Show (Hesperia High School and Mason County Easter Middle and High School). Given eight times over two days to a total of ~400 middle and high school students.
- 2013** Lecture: “Making the New from the Old: The Evolution of a Novel Trait in an Experimental Population of *E. coli*”, BEACON and BioQUEST Summer Workshop for High School Teachers, Kellogg Biological Station, Hickory Corners, MI.
- 2012** Lecture: “Making the New from the Old: The Evolution of a Novel Trait in an Experimental Population of *E. coli*”, Think Evolution Summer Institute for Science Educators, Berkley, California.
- 2011** Guest Lecture: “The *E. coli* Long-Term Evolution Experiment: 50,000 Generations of Evolution in Action”, Evolution in Action (Michigan State University)
- 2004** Teaching Assistant: **MMG 408: Advanced Microbiology Lab** (Michigan State University)
- 2003** Teaching Assistant: **Biol 271: Elementary Microbiology Lab** (University of Cincinnati)
- 2002** Teaching Assistant: **Biol 552: Microbiology Lab** (University of Cincinnati)
- Developed and wrote new lab manual, developed and instituted new curriculum
- Teaching Assistant: **Biol 271: Elementary Microbiology Lab** (University of Cincinnati)
- 2001** Teaching Assistant: **Biol 552: Microbiology Lab** (University of Cincinnati)
Teaching Assistant: **Biol 113: Freshman Biology Lab III** (University of Cincinnati)
Teaching Assistant: **Elementary Microbiology Lab** (University of Cincinnati)
- 2000** Teaching Assistant: **Biol 552: Microbiology Lab** (University of Cincinnati)

Mentoring

Michigan State University

At MSU, I mentored seven undergraduate students, two graduate rotation students, and two high school science teachers. This group included five women, six members of underrepresented minorities, and one disabled individual. My undergraduate mentees have made significant achievements. Three have presented their research at conferences, including two who presented

posters at the 2015 American Society for Microbiology General Meeting in New Orleans. Five have been or will be co-authors on major research papers. One former undergraduate mentee is currently employed as a research specialist at the University of Illinois. One graduated from the Cancer Chemical Biology MS program at the University of Michigan. Another earned an MS of Biomedical Engineering at the George Washington University, and is currently a Project Engineer at Project Farma. Yet another is in the Systems Biology Graduate Program at Harvard University, where he is working with Michael Desai. Finally, one is currently an Animal Care Keeper at the Living Desert Zoo in Palm Desert, California. The two graduate rotation students I mentored joined the Lenski Lab and have accrued distinguished records as researchers and scholars. The two high school science teachers I mentored are planning to develop published curricula based on the research they did with me.

- **Undergraduate Students**

- **Marwa Adawe:** January – May 2007
- **Kiyana Weatherspoon:** January 2013 – October 2015
- **Maia Rowles:** January 2013 – November 2015
- **Jacob Wright:** September 2014 – April 2016
- **Brooke Sommerfeld:** September 2015 – July 2018
- **Tanush Jagdish:** November 2015 – August 2018 (Kalamazoo College, mentored at Michigan State University)
- **Jessica Baxter:** May 2018 – Present

- **Graduate Students**

- **Nkrumah Grant:** Fall 2014 (Rotation Student)
- **Kyle Card:** Winter 2015 (Rotation Student)

- **High School Science Teachers**

- **Fred Hingst:** Summer 2015, Summer 2016
- **Richard Schultz:** Summer 2015, Summer 2016

Kenyon College

At Kenyon College, I mentored eight freshman students in independent research projects. This group included five women, one of whom belonged to an underrepresented minority. Two of these students (S.A. and A.T.) made contributions that will result in co-authorship of a publication.

- **Undergraduate Students**

- **Sumaya Ahmed:** January – July 2019
- **Alice Tillman:** February – May 2019
- **Joanna Van Dyk:** February – May 2019
- **April Murphy:** February – May 2019
- **Emma O’Shaughnessy:** February – May 2019
- **Mark Lang:** February – May 2019
- **Samuel Casad:** February – May 2019
- **Michael Madritch:** February – May 2019

Invited Talks

- “A Big Ball of Evolvey-Wolvey Stuff: The Interplay of Ecology, Physiology, Evolution, Innovation, and Incipient Speciation in an Experimental Population of *E. coli*” (2017). Kenyon College Department of Biological Sciences Seminar Series, Gambier, OH.
- “The *E. coli* Long-Term Evolution Experiment 66,000 Generations (And Counting) of Evolution in Action” (2016). UW Oshkosh Biology and Microbiology Journal Club Seminar Series, Oshkosh, WI.
- “Richard E. Lenski: The Man, the Career, the Legend, and His Place in Science” (2016). Keynote Address, BEACON Congress Symposium in Honor of Richard Lenski’s 60th Birthday, East Lansing, MI.
 - Video: <https://youtu.be/VX9n8sIMXXs>
- “Ecological Specialization and Incipient Speciation in an Experimental Population of *Escherichia coli* (The Cit⁺ Story is Even More Complicated than We Thought)” (2016). EvoAct: Evolution in Action with Living and Artificial Organisms, Autrans, France.
- “Examining the Evolution of a Novel Trait in a Long-Term Experiment with *E. coli*” (2014). Invited Speaker, National Association of Biology Teachers Professional Development Conference, Cleveland, OH.
 - Video: <https://youtu.be/qpnwLdh6ftg>
- “Historical Contingency and the *E. coli* Long-Term Evolution Experiment” (2012). ALife 13, East Lansing, MI.
- “The Evolution of Aerobic Citrate Utilization in an Experimental Population of *E. coli*: A Case Study in Evolutionary Contingency.” (2013) Templeton Foundation Workshop on Order and Contingency in Science and the Humanities. Oxford, UK.
- “Watching Evolution Innovate in the Lab” (2011). Santa Fe Institute Workshop on Innovation, San Jose, CA.
- “History 200: Darwin, *E. coli*, and Evolution” (2009). Science University for Alumni of the MSU College of Natural Sciences, East Lansing, MI.

Fellowships, Awards, Scholarships, and Honors

- **April 2018: Ralph Evans Award for Excellence in Microbial Evolution** – Michigan State University
- **October 2014: Advanced Training Centre Corporate Partnership Programme Fellowship** – European Molecular Biology Laboratory
- **December 2012:** Work described by Blount et al 2012 chosen by *Science News* magazine as one of the top 25 science stories of 2012.
- **Spring 2011: Ronald M. and Sharon Rogowski Fellowship** – Michigan State University
- **Spring 2009: DuVall Award** – Michigan State University
- **Fall 2008 – Summer 2009: Barnett Rosenberg Fellowship** – Michigan State University
- **Spring 2008: Rudolf Hugh Fellowship** – Michigan State University
- **2007: Ecology, Evolutionary Biology, and Behavior Graduate Student Speaker Award** – Michigan State University

- **Summer 2006, 2007: Ecology, Evolutionary Biology, and Behavior Summer Fellowship** – Michigan State University
- **Summer 2002: Wieman Memorial Fellowship** – University of Cincinnati.
- **2001 – 2003: University Scholarship** – University of Cincinnati
- **1995 – 1999: Georgia HOPE Scholarship** – Georgia Institute of Technology

Professional Memberships

- American Association for the Advancement of Science
- American Society for Microbiology
- Society for the Study of Evolution
- National Center for Science Education
- American Society of Naturalists
- Society for Molecular Biology and Evolution
- National Association of Biology Teachers
- Society for Applied Microbiology

Service

- **Journal Reviewer:** *Applied and Environmental Microbiology, Biology Letters, BMC Evolutionary Biology, Current Biology, Current Opinion in Microbiology, Ecology Letters, eLife, Environmental Microbiology and Environmental Microbiology Reports, Evolution, Genome Biology and Evolution, Heliyon, Heredity, IEEE Access, Interface Focus, The ISME Journal, Microbiology Open, Molecular Phylogenetics and Evolution, Nature, Nature Communications, PeerJ, PLoS ONE, Proceedings of the Royal Society B, Science, Scientific Reports, Trends in Ecology and Evolution.*
- **Ad Hoc Grant Proposal Reviewer:** European Research Council, National Science Foundation (USA), The Marsden Fund
- **Ad Hoc Publication Reviewer:** The John Templeton Foundation
- **Organizational Positions Held:**
 - Treasurer, Biology Graduate Students Association, University of Cincinnati: 2001 – 2002
 - President, Biology Graduate Students Association, University of Cincinnati: 2002 – 2003
- **Departmental Committees:**
 - Michigan State University College of Natural Sciences Dean's Student Advisory Committee, Microbiology and Molecular Genetics Graduate Representative: 2005 - 2007
 - Michigan State University, Department of Microbiology and Molecular Genetics Graduate Committee, Graduate Representative: 2007 – 2008
 - Michigan State University, Department of Microbiology and Molecular Genetics Curriculum Committee, Graduate Representative: 2008 – 2009

Public Outreach

- **2009 – present** – Volunteer for MSU Museum’s “Darwin Discovery Day” Educational Event
 - **General Volunteer Coordinator:** 2015 – 2018
 - **Planning Committee:** 2015 – present
- **2016** – Volunteer for BEACON Center Science Fair displays and demonstrations at local schools
- **2014, 2015** – MSU Science Festival Presentation with professors Sarah Gibbons, Kate Fedewa, and Brian Holcomb of MSU Dept. of Writing, Rhetoric, and American Culture: “Science, Fiction, and the Real Monsters of Our Imagination.”
- **2014** – Participant for the 2014 BEACON Center and NESCent Darwin Day Road Show, in which I gave a talk on my path to becoming a scientist, research, and the use of *E. coli* to study evolution to eight high school classes in two schools over the course of two days, speaking to a total of ~400 students.
- **2013** – Volunteer for September 26 Educators’ Night at the Museum, MSU Museum
- **2012** – November 11 Meet-up Speaker for the Michigan Skeptics Association
- **2012** – WAMC Academic Minute Podcast Speaker, November 19, 2012, *Evolving Bacteria*
